

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Stated Meeting, Aug. 18th, 1871.

Present, two members.

Secretary, MR. TREGO, in the chair.

Photographs were received from Prof. Max Müller, of Oxford, England, and from M. Stanislaus Julien, Membre de l' Institut, Paris.

A letter accepting membership was received from Prof. Cleveland Abbe, dated Washington, D. C., July 24, 1871.

Letters of acknowledgment were received from the New York City University (86).

Donations for the library were received from the Hungarian Academy; Herr K. Magey; the Society at Moscow; the Russian Academy; Prussian Academy; Geological Society and Botanical Society of Berlin; the Societies at Gottingen and Bremen; the Geographical Society at Paris; the London Astronomical Society and Meteorological Bureau; Editors of Nature, Cornwell Polytechnical Society; Peabody Museum; Essex Institute; Medical News; and U. S. Department of Engineers at Washington.

The death of Mr. Sidney G. Fisher, a member of the Society, at his residence near Rising Sun, Philadelphia, July 25th, 1871, in the 63d year of his age, was announced.

Mr. Chase presented some tables of daily Rainfalls at the Observatorio do Infante Don Luiz, Lisbon, from 1855 to 1870, with some comparisons, indicating an opposition between the lunar daily rains at Lisbon and Philadelphia, similar to the one he had pointed out as existing between the solar daily rains at the same stations.

And the meeting was adjourned.

Stated Meeting Sept. 15th, 1871.

Present, two members.

Vice-President, MR. FRALEY, in the chair.

A letter accepting membership was received from Mr. B. C. Tilghman, dated Philadelphia, Aug. 1871.

Photographs for the Album were received from Prof. Geo.
